

The subtle look

Prime your complexion by applying a Dr. Hauschka **Foundation** that matches your skin tone. Apply **Concealer** to specific areas if necessary, dabbing and blending to even out skin irregularities. Use the **Compact Powder** to reduce shine and fix the make-up base.

3. Apply a touch of the copper-coloured eyeshadow to the inner eyelid, gently blend the two colours together.

4. Apply **Volume Mascara 01** to the upper and lower lashes.

5. Emphasise the eyebrows with the **Eye & Brow Palette** then fix with the **Brow & Lash Gel**.

1. Apply **Eyeshadow 01** to the entire eyelid to create a powdery base.

2. Apply the green eye definer of the **Eye Crayon Duo 02** to the entire movable lid and to accentuate the lower lash line. Blend the colour upwards towards the eyebrows.

3. Add a slight shimmer with the mother-of-pearl eyeshadow: Using your fingertips, dab it on lightly from the crease of the eyelid to the eyebrow. The colours complement each other well and blend perfectly thanks to their creamy texture.

4. Now use your fingertips to apply the **Eye Crayon Duo 01** to the crease of the eyelid and blend gently.

5. The **Eye Definer 01** creates a dramatic impact if applied to the lower inner lid.

6. Heavy lashes are a must with this look. Apply plenty of **Volume Mascara 01** to the upper and lower lashes.

7. Emphasise the eyebrows with the **Eye & Brow Palette** then fix with the **Brow & Lash Gel**.

8. Highlight the cheeks with the **Blush Duo 01**. Create individual accents with the colour and shimmer components to match your face shape. Apply **Bronzing Glow Powder** to the tops of the cheekbones and the décolleté. Feel free to apply liberally. Glow, glow, glow!

9. Trace the outer contours of the lips with the **Lip Line Definer**. Then outline and fill the lips with the **Liquid Lip Colour 03**.
